

efi Fiery® Impose

Fiery Workflow Suite

Take control of imposition.
Keep up with tight deadlines.

Automate makeready tasks with intuitive tools.

Fiery® Impose, an intuitive PDF-based imposition solution, streamlines and automates the job setup process. Its tight integration with Fiery Command WorkStation®, makeready and prepress tools increases production efficiency.

Fiery Impose enables easy booklet creation, provides several gang-ups, supports cutting and stacking, plus integrates with Duplo finishers. So you get makeready workflows that are:

Intuitive

- See imposition changes as you make them with the visual, interactive interface.
- Merge and move pages with drag-and-drop simplicity.
- Preview all jobs exactly as they will print.

Fast

- Speed production with imposition templates to automate common layouts.
- Integrate with job-submission automation tools such as Hot Folders, Virtual Printers and Job Presets.
- Export imposed PDF to customers to simplify proofing and approval process.

Efficient

- Make changes to imposed files without starting all over again.
- Handle last-minute edits without leaving the Fiery Impose interface with Adobe® Acrobat® Pro and Enfocus Pitstop Edit.
- Impose variable data jobs as easily as regular jobs. Preview every imposed record to make sure it's correct before printing.

Powerful imposition tools

Integrated

- Define media requirements using the same Paper Catalog database in your print engine.
- Use the same working space for all Fiery JobMaster document editing layout tasks.
- Apply barcodes to integrate with Duplo finishers.

Flexible

- Impose jobs right from Fiery Command WorkStation. No need to switch clients or open a different application.
- Perform imposition tasks at the Fiery server or remotely on Windows® or Macintosh clients.

LAYOUT TOOLS	
Gang-up styles	Unique, repeat and other gang-up styles for VDP and non-VDP jobs.
Unique cut and stack	Start cutting, sorting and packing before jobs finish printing.
Binding styles	Produce saddle, nested saddle or perfect bound booklets.
Booklet Maker support	Use Booklet Maker for driver-based imposition and move jobs between Impose and Booklet Maker.
User defined finish size	Honor the designer's intent by automatically detecting the trim box and bleed box defined in the source document.
Non-printable area indicator	Detect image overlap and non-printable area, and adjust layout before RIPping.
Define scaling factor	Gain increased control over scaling options.
Measurement tool	Determine the distance between two reference points on a sheet.
Creep adjustment	Adjust for creep to deliver straight, aligned text throughout a multi-page document.
Bleed definition	Move the trim marks into the image to ensure that the printed area extends beyond the edge of the trimmed sheet.
Customizable trim and fold marks	Independently define the color, length, width, trim type and fold marks.
Duplo barcode support	Print a preconfigured barcode and registration mark in every printed sheet to instruct the Duplo finishers to automatically position blades, cutters and creasers for each printed page.
VDP workflows	Sample a set of records on a raster preview or print a record range for proofing purposes. Add a control strip for quick identification of spoiled sheets.
ASSEMBLY	
Page assembly	View thumbnails and full-screen previews. Add, move and delete pages.
Add, delete and duplicate sheets	Insert custom text for blank pages and add, delete or duplicate imposed images without going back to the source document.
Delivery options	Change the output sequence to optimize the finishing process.
PDF archive	Archive imposed jobs as PDF files for easier reprinting.
EDITING	
Late-stage edits	Apply last-minute edits with Adobe Acrobat Pro and Enfocus Pitstop Edit.
Job label and text on blank page	Print job information strip for quick identification and easy reprint, and slug line for added blank page.
MEDIA DEFINITION	
Cover setup	Define cover pages and dynamically change pagination by inserting blank pages.
Mixed media	Reduce errors by specifying media assignment with visual reference to final content.
Paper Catalog definition	Define custom substrates and add them to Paper Catalog for faster, easier media specification.
AUTOMATION	
Unlimited imposition templates	Eliminate redundant tasks and reduce errors by creating and saving custom templates for re-use.
Workflow support	Define Fiery Impose templates from Fiery Hot Folders, Virtual Printers, Job Presets, Server Presets and Fiery JobFlow workflows.

System requirements

- Fiery System 8 Release 2 or higher
- Fiery Command WorkStation v5.4 or higher

Mac OS client

- Processor: Multicore Intel® processor
- Mac OS X v 10.6, 10.7, 10.8, 10.9 and 10.10
- 1 GB of RAM or more recommended
- 2 GB of available hard drive space
- 1024 x 768 display with 16-bit video card

Windows client

- Processor: Pentium 4, 1 GHz or faster processor
- Microsoft® Windows® XP, Windows Vista and Windows 7, 8
- 1 GB of RAM or more
- 2 GB of available hard drive space
- 1024 x 768 display with 16-bit video card

Note: The functionality of Impose is determined by the version of Fiery system software you are using. Contact your Fiery vendor for additional information on features and functionality that is specific to your Fiery server.

Add Fiery JobMaster to maximize profits

By purchasing Fiery Impose along with the Fiery JobMaster option you can incorporate fully visual tab insertion and design, page-level ticketing, finishing, scanning and powerful late-stage editing capabilities, making all document layout and composition tasks work in a single working space.

FREE online training courses included

You can quickly become proficient in job imposition and start taking advantage of the powerful tools in Fiery Impose with the interactive eLearning courses included with the product.

Fiery Workflow Suite

Fiery Impose is part of the Fiery Workflow Suite, a comprehensive set of advanced tools that streamline and automate print processes for a new level of productivity from job submission to output. By adding these optional tools when you need them, you can increase automation, adapt to changing market demands, and grow with new higher-profit, value-added services.
