

Greater *choice*. Print *anywhere*.

Submit ticketed documents to devices from many manufacturers.

Now, it's possible to submit fully ticketed print jobs without re-ticketing to production printers from multiple manufacturers. TicketMe™ uses RSA's AnyPrint™ technology to convert job tickets created by popular make ready and workflow tools from their proprietary format to formats compatible with production printers from other manufacturers.

The Business Benefits.

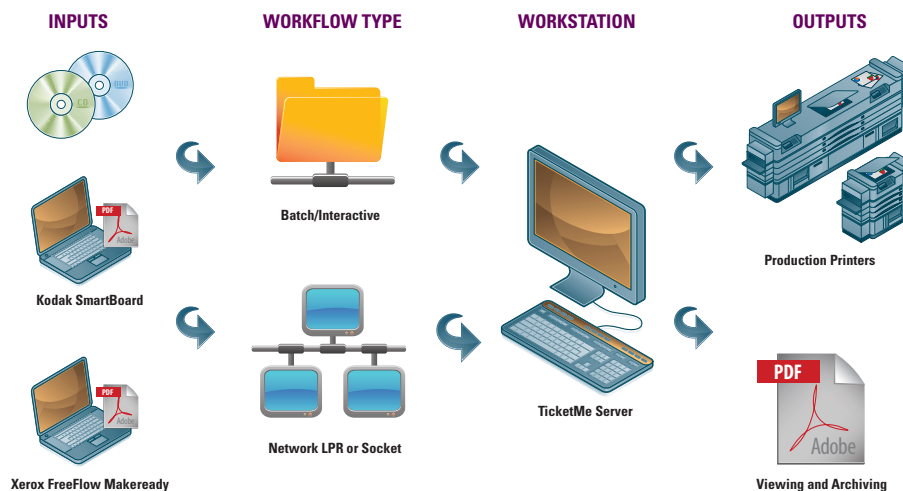

- ✓ Drive devices from many manufacturers with one application
- ✓ Seamlessly integrate into multi-device workflow with no additional operator training
- ✓ Improve flexibility and time to delivery by simplifying workflows
- ✓ Provide operators with the freedom to print to the "best" printer for the application

TicketMe Features:

- ✓ Supports diverse multi-vendor print center hardware and software
- ✓ Converts all ticketing functions and job attributes
- ✓ Process files automatically as pass-through print or manually using the User Interface
- ✓ View, store, and print on select production printers
- ✓ Allows greater choice of production printers

The Proven Partner.

- ✓ Industry leader in data center and CRD print transformation
- ✓ Responsive, experienced, US-based Technical Analysts provide the best direct support in the industry
- ✓ Rigorous implementation processes ensure your success
- ✓ Celebrating more than 25 years of delivering customer results
